Airspace World 2023:

Sopra Steria presents its technological innovations to enable a European digital sky and a sustainable aviation

Geneva, from 8 to 10 March 2023

Paris, March 6, 2023 - Sopra Steria, a European tech leader in consulting, digital services and software development, will be attending the Airspace World 2023 in Geneva, the largest and most influential airspace and near-space management event in the world.

As a major player in the field of Tech, Sopra Steria develops and offers a wide range of digital services for air transport management.

During the event, Sopra Steria's experts will present the latest technological innovations to improve air traffic management and implement a "European Digital Sky", enabled by advances in artificial intelligence to gain in efficiency and sustainability. Sopra Steria representatives will also participate in several conferences on sustainable aviation, the use of artificial intelligence and cyber resilience.

All our experts present at Airspace World Geneva will be available on stand E20 to discuss and answer your questions about the future of air transport during the show.

PROGRAMME

Demonstrations – Stand E 20

- **Sustainable Aviation:** This demonstration is designed to raise awareness of the connection between contrail zones and greenhouse gases. The use of artificial intelligence to prevent such areas could reduce CO2 emissions.
- **Artificial Intelligence:** This demonstration will show how the validation of a Controller Working Position operational use case can be fully automated to reduce the time to operations.
- **Drone Operations:** This demonstration will show how drone integration can be supported by adding automation considering security, social & environmental constraints.
- **Airspace Management:** This demonstration will show how multiple airspace users can coordinate and negotiate the use of airspace in planning and tactical phases, making the best use of the shared airspace.

Conferences

Wednesday, March 8th

- **5:00 - 5:25 PM - Sustainable mobility:** how does collaborative governance and data sharing support greener aviation? The example of Stargate.

Thursday, March 9th

- **1:30 - 1:55 PM - Drone Operations:** The UAS ecosystem, a realistic perspective.

- **4:00 - 4:25 PM - Sustainable Aviation:** The story of continuous descent operations. How to move from experimentation to large-scale deployment in Europe?

Friday March 10th

- **10am - 10:25 AM - Artificial Intelligence:** How can AI improve software quality and speed up operations in air traffic management?
- **11am - 11:25 AM - Cyber Resilience:** Improving the resilience of future ATM operations to cyber-attacks through artificial intelligence.

About Sopra Steria

Sopra Steria, a European tech leader recognised for its consulting, digital services and software development, helps its clients drive their digital transformation to obtain tangible and sustainable benefits. It provides end-to-end solutions to make large companies and organisations more competitive by combining in-depth knowledge of a wide range of business sectors and innovative technologies with a fully collaborative approach. Sopra Steria places people at the heart of everything it does and is committed to putting digital to work for its clients in order to build a positive future for all. With 50,000 employees in nearly 30 countries, the Group generated revenue of €5.1 billion in 2022.

The world is how we shape it.

Sopra Steria (SOP) is listed on Euronext Paris (Compartment A) – ISIN: FR0000050809
